

IEEE 802 Printer Information

There is a black & white laser printer available for general use.

The printer is located at the wired café near the Verilan Help Desk on the 3rd floor.

Printer Model: HP LaserJet 1022n

Printer name: regprinter

IP Address: 192.168.168.96

Printer drivers are available at: <http://newton.events.ieee.org>

Windows setup:

1. Download and install the printer driver.
2. Run the Add Printer wizard from Printers & Faxes
3. Select Local printer, but don't automatically search for the device.
4. Add a new port of the type "Standard TCP/IP"
 - a. For address name use "192.168.168.96"
 - b. Continue through the "Add Printer Port" wizard until it exits
5. Select HP LaserJet 1022n as the model and accept all dialogs until the wizard completes.

Macintosh setup:

1. Download and run the driver dmg file from <http://newton.events.ieee.org>.

If you need additional assistance, please visit the Verilan helpdesk.
